EROSION CONTROL PLAN & DETAILS

PROJECT—SPECIFIC EROSION CONTROL PLAN
City of Berlin — 2020 Street and Utility Improvements

A tracking pad must be installed per erosion control plan details on each site prior to construction, and maintained through final stabilization. The locations of tracking pads are shown on the plans.

Inlet protection must be installed on all existing inlets per the Erosion Control Plan and Details Prior to Construction. Inlet protection shall be installed on all new inlets as they are installed. The locations of existing inlets needing inlet protection are shown on the plans.
