NOTICE TO BERLIN WATER CUSTOMERS

The Berlin Water Department will be flushing dead-end water mains throughout the city on Monday, October 24 thru Thursday, October 27, 2022, during daytime hours, weather permitting. This main flushing is intended to remove iron deposits in the mains that are harmless, but will discolor the water. Should you find discoloration in your water system, draw off the discolored water through the **cold water tap only**. Please check the water before starting laundry in the A.M.

Your help and cooperation in this program will benefit all water consumers. Thank you.

Brian A. Malnory
Utility Superintendent
